

Your Guide to Doing it Right

Qualitative Fit Testing Software

Qualitative fit testing (QLFT) is an inherently subjective (pass/fail) fit test method that has a higher level of variability across users.

Let's remove the guesswork from the fit testing process with step-by-step guidance on conducting a qualitative respirator fit test. With Qualitative Respirator Fit Testing with FitPro™ Ultra Fit Test Software from TSI® this automated solution:

- Enables consistency to a subjective fit testing method while adding automation to the manual qualitative fit testing process
- Reduces administrator time spent providing verbal instruction, giving demonstrations, and filling out paperwork
- Facilitates clear-cut qualitative fit testing and improved record management to provide more confidence in the final results to help ensure worker safety - from training through compliance reporting

Enhance your fit testing process with Qualitative Fit Test Software from TSI® to help ensure you're doing qualitative fit testing consistently and correctly.

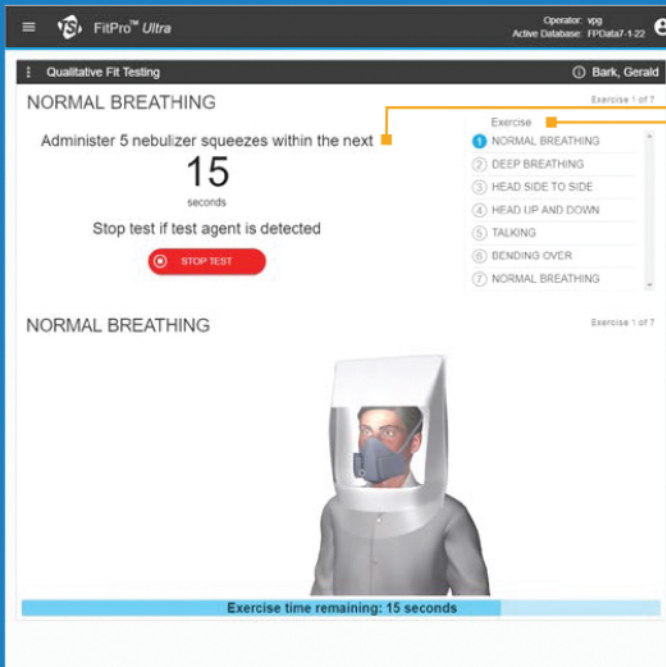

Consistent Testing Protocol

Intuitive Administrator Guidance

Automated Record Keeping and Reporting

Your Main Screens to Qualitative Fit Testing

- Automatically guides the administrator step-by-step through the fit test process
 - Easy-to-follow on-screen instructions, test agent delivery timers with exercise fit test animations
- 1 Visually guided OSHA 7-step exercise protocol for a proper and complete qualitative fit test
 - 2 Indicators for proper test solution dispensing to deliver the right number of squeezes at the right times
- Storage of fit test results in a database for easy retrieval for printing fit test records and report generation

Single Software Solution for Both Fit Test Methods

Built on a proven platform, experience the simplicity the FitPro™ Ultra Fit Test Software for Qualitative Fit Testing can bring to your respiratory fit test program. For those also completing quantitative fit testing (QNFT) with TSI's PortaCount® Respirator Fit Tester you now can add the qualitative fit testing option using the same FitPro™ Ultra Fit Testing Software. It provides a seamless fit test administrator experience and consolidated record keeping into a single software solution.

Qualitative Respirator Fit Testing with FitPro™ Ultra Fit Testing Software from TSI® – from the experts in respiratory protection testing solutions.
