NanoScan SMPS™

3910

TSI® service, performed on an annual basis, helps to keep your NanoScan SMPS™ 3910 in proper working order. TSI® offers two levels of service: Clean and Calibrate, and Repair, Clean and Calibrate. Read below to learn what is included in each service.

Clean and Calibrate Service includes:

Maintain	<ul style="list-style-type: none">▪ Confirm basic functions, including battery ports▪ Clean the wick port, manifold, mixing chamber, DMA, inlet cyclone▪ Clean charger using a lint-free swab▪ Align and collimate CPC laser
Replace	<p>Parts</p> <ul style="list-style-type: none">▪ Replace wick, o-rings, nozzle, internal filters. Replace flow straightener within DMA to ensure sizing accuracy. Replace pumps and tubing if needed <ul style="list-style-type: none">▪ Leak check at several stages during, and also after, reassembly <p>Calibrate</p> <ul style="list-style-type: none">▪ Calibrate inlet flow, high voltage, alcohol fill threshold▪ Confirm accuracy of pump voltages and all other volumetric flows <p>Aerosol Challenge Tests</p> <ul style="list-style-type: none">▪ Using a component-based SMPS™ as a reference, use four test conditions (low and high aerosol concentration, at both of small and large aerosol sizes) to confirm accuracy of:<ul style="list-style-type: none">▪ Aerosol concentration measurement within 20%▪ Aerosol size measurement (as indicated by geometric mean diameter of the measured aerosol distribution) within 20%
Test	<p>Zero Check</p> <ul style="list-style-type: none">▪ Confirm instrument passes a 1-hour zero check test▪ Clean inlet cyclone at end of aerosol testing

Does NOT Include	<p>Broken Parts</p> <ul style="list-style-type: none">▪ Valve, pumps <p><i>(In such cases, consider 'Repair, Clean and Calibrate' service)</i></p> <p>Physical Damage</p> <ul style="list-style-type: none">▪ Scratches on external case
------------------	--

Service Options NanoScan SMPS™

3910

Repair, Clean and Calibrate includes:

- | | |
|---------------------|--|
| Repair | ▪ Repair or replace broken parts (e.g. pump, laser) |
| Clean and Calibrate | ▪ All actions in a standard 'Clean and Calibrate' service are then performed |
| Does NOT Include | ▪ Physical damage to outer case |

What Makes TSI® Service Valuable?

As a result of TSI® service, you are returned an optimally performing and updated instrument. The service is performed by TSI's experienced technicians for a fixed price. This simple service process allows you to stay focused on the work that is important to you. The calibration of the flows in the NanoScan SMPS™ 3910 is NIST-traceable. TSI® is registered to ISO-9001:2015.
