

Ordering QualityGuard™ Calibration Contracts and Extended Warranties

To Order

Calibration contracts and extended warranties are available for numerous instruments. To learn whether your instrument – or an instrument you’re considering purchasing – has a calibration contract or extended warranty available for it, talk to your sales representative or email sales@mspcorp.com.

What are QualityGuard™ Calibration Contracts and Extended Warranties?

For a list of eligible equipment and part numbers, please visit our on our website - www.tsi.com/MSP-QualityGuard.

Processing a Request

A Return Material Authorization (RMA) number IS REQUIRED for each piece of equipment being returned.

To obtain RMA number(s), visit the request service repairs and calibrations page on the TSI.com website (tsi.com/service/msp). Registering your equipment and requesting service online will help to streamline your service experience. You are also welcome to contact MSP™ by email to request RMS numbers (service@mspcorp.com).

If more than 1 item is to be processed at a time, please specify how you would like them grouped for return.

A hard copy of your purchase order and RMA must be enclosed in your shipment.

Please pack your items securely, preferably in the original packaging with custom inserts (these can be purchased at time of request if you no longer have yours - see page 4). Send all NGIs with a cup tray and full cup set and all ACIs with a base and inlet cone to help protect the impactor stages during shipment.

Failure to follow these instructions may result in a delay in your equipment processing; MSP/TSI is not responsible for damage in transport if approved shipping cartons are not used.

Attention: MSP™ a division of TSI® Incorporated. Purchase Orders should be made to "TSI". Purchase Orders made out to MSP™ Corporation will not be accepted!

Typical Lead Time

Standard time to complete equipment qualification is 10 to 12 business days. Items needing cleaning, repair, or adjustment may result in longer turnaround times.

Expedited Service

We now offer a FAST TRACK option. These requests are moved to front of line and typically take less than 5 days to process. Opt for expedited service when requesting service on the TSI® website or by emailing sales@mspcorp.com.

Shipping Information

Please ship all items to the following address:

MSP, A Division of TSI
Attn: Pharma Services
5910 Rice Creek Parkway
Rear Dock No. 600
Shoreview, MN 55126 USA

* Equipment owner is responsible for shipping costs both to and from MSP™. When approved cartons are not used for return shipment to the customer, MSP™ shall not be responsible for product damage.

Shipping Cartons

MSP™ always recommends saving the reusable, original custom shipping cartons for your equipment, and using them for shipping your equipment back to MSP for regular mensuration. Proper shipping materials will help prevent damage to the equipment in transit. If you no longer have the original shipping cartons, new containers are available for purchase.

Part No.	Description	List Price
0001-01-9391	ACI Returns Carton	\$145

Additional Information

The Calibration Contract becomes valid for use 30 days after purchase and lasts for two years after purchase.

Calibration services (whether performed under a Calibration Contract or not) come with a 90-day warranty on labor performed, or parts used, during the service.

Please note all TSI® standard terms and conditions apply. Refer to TSI® Sales Terms and Conditions (www.tsi.com/policies/) for more information.
