

TSI OmniTrak™ Solution Ordering Guide

Three clear steps. Buy what you need.
Add more when you're ready.

Step 1

Choose Your Hardware

Start with the Smart Station, then add the modules for the parameters you need. Expand anytime – the platform grows with you.

Optional Next Steps...

Step 2

Protect Your Investment

Factory calibration and repair services can be purchased a la carte at any time. Service plans can be added to any module within one year of its purchase date.

Calibration Plan

- All sensors are factory calibrated and ship with calibration certificates.*
- Includes 3 pre-paid calibrations, plus automatic reminders when each one is due

Extended Warranty Plan

- Includes a 1-year factory warranty. Add a 2-year plan for 3 years of total coverage
- Protects the battery, connectors, housing, and circuit board
- 25% discount on sensor replacement service

Step 3

Unlock Data & Insights

Subscribe to **TSI Link™** Report Creator at initial sale or anytime after. Your subscription provides access to automated reporting, secure cloud storage, and wireless study transfer from the Smart Station.**

- Choose a 1-, 2-, or 3-year subscription, billed annually.
- One flat fee, no matter how many devices you own.

*PM module does not ship with calibration certificate, but will be available soon

Subscription will include **TSI Link™ Study API by the end of the year
